**Explanation of Responses:**

- Each share unit represents the economic equivalent of one share of common stock. At time of distribution, Reporting Person will receive one share of common stock in exchange for each share unit, rounded up to the next whole share.
- Additional share units accrue when and as dividends are paid on the Company's common stock. The number of whole and fractional share units accrued will be equal to the dollar amount of dividends that would have been payable if the share units in Reporting Person's account on the record date had been actual shares of common stock, divided by the average of the high & low sale prices of a share of the Company's common stock on the date dividends are paid.
- Delivery of shares of common stock in exchange for the share units will be made on the first business day in January following the calendar year in which Reporting Person ceases to be a director of the Company.
- Reporting Person elected to defer \$16,000 of retainer and meeting fees for the first quarter of 2007 in exchange for share units. The number of share units was determined by dividing \$16,000 by \$38.15, the average of the high and low sale prices of a share of the Company's common stock on March 30, 2007.

**Remarks:**

This Form 4 is being amended to correct the original reporting of the securities as shares of common stock, which are non-derivative securities, rather than as share units, which are derivative securities.
