**United Reports February 2016
Operational Performance**

CHICAGO, March 8, 2016 – United Airlines (UAL) today reported February 2016 operational results.

UAL's February 2016 consolidated traffic (revenue passenger miles) increased 2.7 percent and consolidated capacity (available seat miles) increased 6.0 percent versus February 2015. Excluding the impact of leap year, consolidated traffic decreased 1.0 percent and consolidated capacity increased 2.2 percent year-over-year. UAL's February 2016 consolidated load factor decreased 2.5 points compared to February 2015.

The company continues to expect first-quarter 2016 consolidated passenger unit revenue to decline 6 to 8 percent compared to the first quarter of 2015, with the decline driven largely by a strong U.S. dollar, lower surcharges, travel reductions from customers impacted by declining oil prices and softening domestic and international yields.
