**UNITED CONTINENTAL HOLDINGS, INC. AND UNITED AIRLINES, INC.
COMBINED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

United Continental Holdings, Inc. (together with its consolidated subsidiaries, “UAL” or the “Company”) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, “United”). This Quarterly Report on Form 10-Q is a combined report of UAL and United, including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United’s operating revenues and operating expenses comprise nearly 100% of UAL’s revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL’s assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words “we,” “our,” “us,” and the “Company” in this report for disclosures that relate to all of UAL and United.

The UAL and United unaudited condensed consolidated financial statements shown here have been prepared as required by the U.S. Securities and Exchange Commission (the “SEC”). Some information and footnote disclosures normally included in financial statements that comply with accounting principles generally accepted in the United States (“GAAP”) have been condensed or omitted as permitted by the SEC. The financial statements include all adjustments, including normal recurring adjustments and other adjustments, which are considered necessary for a fair presentation of the Company’s financial position and results of operations. The UAL and United financial statements should be read together with the information included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. The Company’s quarterly financial data is subject to seasonal fluctuations and historically its second and third quarter financial results, which reflect higher travel demand, are better than its first and fourth quarter financial results.

NOTE 1 - RECENTLY ISSUED ACCOUNTING STANDARDS

The Company adopted FASB Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers* (the “New Revenue Standard”), effective January 1, 2018 using the full-retrospective method. Topic 606 prescribes that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For the Company, the most significant impact of the standard is the reclassification of certain ancillary fees from other operating revenue into passenger revenue on the statement of consolidated operations. These ancillary fees are directly related to passenger travel, such as ticket change fees and baggage fees, and are no longer considered distinct performance obligations separate from the passenger travel component. In addition, the ticket change fees, which were previously recognized when received, are now recognized when transportation is provided. Adoption of the standard had no impact on the Company’s consolidated cash flows statements.

The Company adopted Accounting Standards Update No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost* (the “New Retirement Standard”), effective January 1, 2018 using the full-retrospective method. The New Retirement Standard requires employers to present the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs arising from services rendered during the period. The other components of net benefit cost, including interest cost, expected return on plan assets, amortization of prior service cost/credit and actuarial gain/loss, and settlement and curtailment effects, are to be presented outside of any subtotal of operating income. The Company elected to apply the practical expedient and use the amounts disclosed in Note 5 to the financial statements included in Part I, Item 1 of the Company’s Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017 as the estimation basis for applying the retrospective presentation requirements of the standard.

[Table of Contents](#)

The new standards had the same impact on the financial statements of United as they had on the financial statements of UAL. The table below presents the impact of the adoption of the New Revenue Standard and the New Retirement Standard on select accounts and captions of the statement of consolidated operations for the first quarter of 2017 (in millions, except per share amounts):

The Company adopted Accounting Standards Update No. 2016-01, *Financial Instruments—Overall* (Subtopic 825-10) (“ASU 2016-01”) effective January 1, 2018. This standard makes several changes, including the elimination of the available-for-sale classification of equity investments, and requires equity investments with readily determinable fair values to be measured at fair value with changes in fair value recognized in earnings. The adoption did not have a material impact on our financial statements. See Note 4 and 7 included in this Part I, Item 1 for additional information.

Accounting for Leases. In February 2016, the FASB amended the FASB Accounting Standards Codification and created a new Topic 842, *Leases* (the “New Lease Standard”). The guidance requires lessees to recognize a right-of-use asset and a lease liability for all leases (with the exception of short-term leases) at the commencement date and recognize expenses on their income statements similar to the current Topic 840, *Leases*. It is effective for fiscal years and interim periods beginning after December 15, 2018, and early adoption is permitted. Lessees and lessors are required to adopt the New Lease Standard using a modified retrospective approach for all leases existing at or commencing after the date of initial application with an option to use certain practical expedients. We have not completed our evaluation of the impact but believe this standard will have a significant impact on our consolidated balance sheets but is not expected to have a material impact on the Company's results of operations or cash flows. The primary effect of adopting the new standard will be to record assets and obligations for its operating leases.

NOTE 2 - REVENUE

The Company presents Passenger revenue, Cargo revenue and Other operating revenue on its income statement. Passenger revenue is recognized when transportation is provided and Cargo revenue is recognized when shipments are delivered. Other operating revenue is recognized as the related performance obligations are satisfied.

The Company sells passenger ticket and related ancillary services for mainline and regional flights primarily via credit cards with payments collected by the Company in advance of the performance of related services. The Company initially records ticket sales in its Advance ticket sales liability, deferring revenue recognition until the travel occurs. For travel that has more than one flight segment, the Company deems each segment as a separate performance obligation and recognizes revenue for each segment as travel occurs. Tickets sold by other airlines where the Company provides the transportation are recognized as passenger revenue at the estimated value to be billed to the other airline when travel is provided. Differences between amounts billed and the actual amounts may be rejected and rebilled or written off if the amount recorded was different from the original estimate. When necessary, the Company records a reserve against its billings and payables with other airlines based on historical experience.

[Table of Contents](#)

The Company sells certain tickets with connecting flights with one or more segments operated by its other airline partners. For segments operated by its other airline partners, the Company has determined that it is acting as an agent on behalf of the other airlines as they are responsible for their portion of the contract (i.e. transportation of the passenger). The Company, as the agent, recognizes revenue within Other operating revenue at the time of the travel for the net amount representing commission to be retained by the Company for any segments flown by other airlines.

Refundable tickets expire after one year from the date of issuance. Non-refundable tickets generally expire on the date of the intended travel, unless the date is extended by notification from the customer on or before the intended travel date. The Company records breakage revenue on the travel date for its estimate of tickets that will expire unused. To determine breakage, the Company uses its historical experience with refundable and non-refundable expired tickets and other facts, such as recent aging trends, program changes and modifications that could affect the ultimate expiration patterns of tickets. Fees charged in association with changes or extensions to non-refundable tickets are considered part of the Company's passenger travel obligation. As such, those fees are deferred at the time of collection and recognized at the time the travel is provided.

United initially capitalizes the costs of selling airline travel tickets and then recognizes those costs as Distribution expense at the time of travel. Passenger ticket costs include credit card fees, travel agency and other commissions paid, as well as global distribution systems booking fees.

Ticket Taxes. Certain governmental taxes are imposed on the Company's ticket sales through a fee included in ticket prices. The Company collects these fees and remits them to the appropriate government agency. These fees are recorded on a net basis and, as a result, are excluded from revenue.

Accounts Receivable. Accounts receivable primarily consist of amounts due from credit card companies, non-airline partners, and cargo transportation customers. We provide an allowance for uncollectible accounts equal to the estimated losses expected to be incurred based on historical write-offs and other specific analyses. Bad debt expense and write-offs were not material for the three months ended March 31, 2018 and 2017.

Advance Ticket Sales. Advance ticket sales represent the Company's liability to provide air transportation in the future. In both the three months ended March 31, 2018 and 2017, the Company recognized approximately \$1.9 billion of passenger revenue for tickets that were included in Advance ticket sales at the beginning of those periods. All tickets sold at any given point of time have travel dates extending up to twelve months. As a result, the balance of the Company's Advance ticket sales liability represents activity that will be recognized in the next twelve months.

Frequent Flyer Accounting. United's MileagePlus program builds customer loyalty by offering awards, benefits and services to program participants. Members in this program earn miles for travel on United, United Express, Star Alliance members and certain other airlines that participate in the program. Members can also earn miles by purchasing the goods and services of our network of non-airline partners. We have contracts to sell miles to these partners with the terms extending from one to eight years. These partners include domestic and international credit card issuers, retail merchants, hotels, car rental companies and our participating airline partners. Miles can be redeemed for free (other than taxes and government imposed fees), discounted or upgraded air travel and non-travel awards. Miles expire after 18 months of member account inactivity.

Miles Earned in Conjunction with Travel. When frequent flyers earn miles for flights, the Company recognizes a portion of the ticket sales as revenue when the travel occurs and defers a portion of the ticket sale representing the value of the related miles as a separate performance obligation. The Company determines the estimated selling price of travel and miles as if each element is sold on a separate basis. The total consideration from each ticket sale is then allocated to each of these elements, individually, on a pro rata basis. At the time of travel, the Company records the portion allocated to the miles to Frequent flyer deferred revenue on the Company's consolidated balance sheet and subsequently recognizes it into revenue when miles are redeemed for air travel and non-travel awards.

The Company's estimated selling price of miles is based on an equivalent ticket value less breakage, which incorporates the expected redemption of miles, as the best estimate of selling price for these miles. The equivalent ticket value is based on the prior 12 months' weighted average equivalent ticket value of similar fares as those used to settle award redemptions while taking into consideration such factors as redemption pattern, cabin class, loyalty status and geographic region. The estimated selling price of miles is adjusted by breakage that considers a number of factors, including redemption patterns of various customer groups. The Company reviews its breakage estimates annually based upon the latest available information regarding redemption and expiration patterns. The Company's estimate of the expected expiration of miles requires significant management judgment. Current and future changes to expiration assumptions or to the expiration policy, or to program rules and program redemption opportunities, may result in material changes to the deferred revenue balance as well as recognized revenues from the program.

Co-Brand Agreement. United has a significant contract to sell MileagePlus miles to its co-branded credit card partner Chase Bank USA, N.A. (“Chase”). Chase awards miles to MileagePlus members based on their credit card activity. United identified the following significant separately identifiable performance obligations in the co-brand agreement:

- MileagePlus miles awarded - United has a performance obligation to provide MileagePlus cardholders with miles to be used for air travel and non-travel award redemptions. The Company records Passenger revenue related to the travel awards when the transportation is provided and records Other revenue related to the non-travel awards when the goods or services are delivered. The Company records the cost associated with non-travel awards in Other operating revenue.
- Marketing - United’s performance obligation is to provide Chase access to its customer list and the use of its brand. United determined access to its customer list and use of the United brand constitute a single performance obligation by virtue of being highly interdependent and interrelated. Marketing revenue is recorded to Other operating revenue over the term of the co-brand agreement based on customer’s use of the MileagePlus credit card.
- Advertising - United has a performance obligation to provide advertising in support of the MileagePlus card in various customer contact points such as United’s website, email promotions, direct mail campaigns, airport advertising and in-flight advertising. Advertising revenue is recorded to Other operating revenue as advertising is provided.
- Other travel-related benefits - United’s performance obligations are comprised of various items such as waived bag fees, seat upgrades, and lounge passes. Lounge passes are recorded to Other operating revenue as customers use the lounge passes. Bag fees and seat upgrades are recorded to Passenger revenue at the time of the associated travel.

The fair value of the separately identifiable performance obligations is determined using management’s estimated selling price of each component. The objective of using the estimated selling price based methodology is to determine the price at which we would transact a sale if the product or service were sold on a stand-alone basis. Accordingly, we determine our best estimate of selling price by considering multiple inputs and methods including, but not limited to, discounted cash flows, brand value, volume discounts, published selling prices, number of miles awarded and number of miles redeemed. The Company estimated the selling prices and volumes over the term of the co-brand agreement in order to determine the allocation of proceeds to each of the components to be delivered. We also evaluate volumes on an annual basis, which may result in a change in the allocation of the estimated consideration from the co-brand agreement on a prospective basis.

Frequent flyer deferred revenue. Miles in MileagePlus members’ accounts are combined into one homogeneous pool and are thus not separately identifiable, for award redemption purposes, between miles earned in the current period and those in their beginning balance. The Company expects the majority of these miles to be redeemed within the first four years with the highest redemption rate in year one. The table below presents a roll forward of Frequent flyer deferred revenue (in millions):

	Three Months Ended	
	March 31,	
	2018	2017
Total Frequent flyer deferred revenue—beginning balance	\$ 4,783	\$ 4,889
Total miles awarded	603	488

Non-travel miles redeemed (Other operating revenue)	(40)	(39)
Total Frequent flyer deferred revenue—ending balance	\$ 4,937	\$ 4,940

In the three months ended March 31, 2018 and 2017, the Company recognized, in Other operating revenue, \$482 million and \$403 million, respectively, related to the marketing, advertising and other travel-related benefits of the mileage revenue associated with our various partner agreements including, but not limited to, our Chase co-brand agreement. The portion related to the MileagePlus miles awarded of the total amounts received is deferred and presented in the table above as an increase to the frequent flyer liability. The Company also recognized, in Other operating revenue, \$28 million in costs associated with the non-travel miles redeemed in the three months ended March 31, 2018 and 2017.

Ancillary Fees. The Company charges fees, separately from ticket sales, for certain ancillary services that are directly related to passengers' travel, such as ticket change fees, baggage fees, inflight amenities fees, and other ticket-related fees. These ancillary fees are part of the travel performance obligation and, as such, are recognized as passenger revenue when the travel occurs. The Company recorded \$497 million and \$478 million of ancillary fees within passenger revenue in the first three months of 2018 and 2017, respectively.

NOTE 5 - INCOME TAXES

The Company's effective tax rate for the three months ended March 31, 2018 and 2017 was 20.3% and 33.6%, respectively. The effective tax rate represents a blend of federal, state and foreign taxes and included the impact of certain nondeductible items. The effective tax rate for the three months ended March 31, 2018 also reflects the reduced federal corporate income tax rate as a result of the enactment of the Tax Cuts and Jobs Act (the "Tax Act") in December 2017 and the impact of a change in the Company's mix of domestic and foreign earnings. We continue to analyze the different aspects of the Tax Act which could potentially affect the provisional estimates that were recorded at December 31, 2017.

NOTE 6 - EMPLOYEE BENEFIT PLANS

Defined Benefit Pension and Other Postretirement Benefit Plans. The Company's net periodic benefit cost includes the following components for the three months ended March 31 (in millions):

	Pension Benefits		Other Postretirement Benefits		Affected Line Item in the Statements of Consolidated Operations
	2018	2017	2018	2017

During the three months ended March 31, 2018, the Company contributed \$113 million to its U.S. domestic tax-qualified defined benefit pension plans.

Share-Based Compensation. In the three months ended March 31, 2018, UAL granted share-based compensation awards pursuant to the United Continental Holdings, Inc. 2017 Incentive Compensation Plan. These share-based compensation awards include 1.7 million RSUs consisting of 1.0 million time-vested RSUs and 0.7 million performance-based RSUs. The time-vested RSUs vest pro-rata, on February 28th of each year, over a three-year period from the date of grant. These RSUs are generally equity awards settled in stock for domestic employees and liability awards settled in cash for international employees. The cash payments are based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The performance-based RSUs vest based on the Company's relative improvement in pre-tax margin, as compared to a group of industry peers, for the three years ending December 31, 2020. If this performance condition is achieved, cash payments will be made after the end of the performance period based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The Company accounts for the performance-based RSUs as liability awards.

The table below presents information related to share-based compensation (in millions):

	Three Months Ended March 31,

Available-for-sale investment maturities - The short-term investments shown in the table above are classified as available-for-sale, with the exception of investments measured at NAV. As of March 31, 2018, asset-backed securities have remaining maturities of less than one year to approximately 17 years, corporate debt securities have remaining maturities of less than one year to approximately three years and CDARS have maturities of less than one year. U.S. government and other securities have maturities of less than one year to approximately three years. The EETC securities mature in 2019.

Restricted cash - Restricted cash primarily includes collateral for letters of credit and collateral associated with obligations for facility leases and workers' compensation.

Equity securities - Equity securities represent United's investment in Azul. The Company recognizes changes in Azul's fair market value in Miscellaneous, net in its statements of consolidated operations.

Investments presented in the table above have the same fair value as their carrying value. The table below presents the carrying values and estimated fair values of financial instruments not presented in the tables above (in millions):

	Fair Value of Debt by Fair Value Hierarchy Level									
	Carrying Amount	March 31, 2018				Carrying Amount	December 31, 2017

Table of Contents

Fair value of the financial instruments included in the tables above was determined as follows:

Description	Fair Value Methodology
<i>Cash and cash equivalents</i>	The carrying amounts approximate fair value because of the short-term maturity of these assets.
<i>Short-term investments, Equity securities, EETC and Restricted cash</i>	Fair value is based on (a) the trading prices of the investment or similar instruments, (b) an income approach, which uses valuation techniques to convert future amounts into a single present amount based on current market expectations about those future amounts when observable trading prices are not available, or (c) broker quotes obtained by third-party valuation services.
<i>Other investments measured at NAV</i>	In accordance with the relevant accounting standards, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position. The investments measured using NAV are shares of mutual funds that invest in fixed-income instruments including bonds, debt securities, and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. The Company can redeem its shares at any time at NAV subject to a three-day settlement period.
<i>Long-term debt</i>	Fair values were based on either market prices or the discounted amount of future cash flows using our current incremental rate of borrowing for similar liabilities.

NOTE 8 - COMMITMENTS AND CONTINGENCIES

Commitments. As of March 31, 2018, United had firm commitments and options to purchase aircraft from The Boeing Company (“Boeing”) and Airbus S.A.S. (“Airbus”) presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350	45
Boeing 737 MAX	161
Boeing 777-300ER	2
Boeing 787	14

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery through 2027. To the extent the Company and the aircraft manufacturers with whom the Company has existing orders for new aircraft agree to modify the contracts governing those orders, the amount and timing of the Company’s future capital commitments could change. For the remainder of 2018, United expects to take delivery of two Boeing 777-300ER aircraft, three Boeing 787 aircraft, 10 Boeing 737 MAX aircraft and three used Boeing 767-300ER aircraft. In March 2018, United entered into an agreement to purchase 20 used Airbus A319 aircraft with expected delivery dates scheduled in 2020 and 2021.

The table below summarizes United’s commitments as of March 31, 2018, which primarily relate to the acquisition of aircraft and related spare engines, aircraft improvements and include other capital purchase commitments. Any new firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

Facility and Other Operating Leases. In March 2018, United executed a new Airline Use and Lease Agreement at O'Hare International Airport with the City of Chicago with a lease term of approximately 15 years effective May 12, 2018 through December 31, 2033.

The table below summarizes the Company's scheduled future minimum lease payments under facility operating leases having initial or remaining noncancelable lease terms of more than one year as of March 31, 2018 (in millions):

	Facility and Other Operating Leases
Last nine months of 2018	\$ 1,010
2019	1,209
2020	1,302
2021	1,068
2022	930
After 2022	7,576
	<u>\$ 13,095</u>

Guarantees. As of March 31, 2018, United is the guarantor of approximately \$2.0 billion in aggregate principal amount of tax-exempt special facilities revenue bonds and interest thereon. These bonds, issued by various airport municipalities, are payable solely from rentals paid under long-term agreements with the respective governing bodies. The leasing arrangements associated with approximately \$1.4 billion of these obligations are accounted for as operating leases with the associated expense recorded on a straight-line basis resulting in ratable accrual of the lease obligation over the expected lease term. The leasing arrangements associated with approximately \$454 million of these obligations are accounted for as capital leases. All of these bonds are due between 2019 and 2038.

Increased Cost Provisions. In the Company's financing transactions that include loans, the Company typically agrees to reimburse lenders for any reduced returns with respect to the loans due to any change in capital requirements and, in the case of loans in which the interest rate is based on the London Interbank Offered Rate, for certain other increased costs that the lenders incur in carrying these loans as a result of any change in law, subject, in most cases, to obligations of the lenders to take certain limited steps to mitigate the requirement for, or the amount of, such increased costs. At March 31, 2018, the Company had \$3.4 billion of floating rate debt and \$52 million of fixed rate debt with remaining terms of up to 11 years that are subject to these increased cost provisions. In several financing transactions involving loans or leases from non-U.S. entities, with remaining terms of up to 11 years and an aggregate balance of \$3.3 billion, the Company bears the risk of any change in tax laws that would subject loan or lease payments thereunder to non-U.S. entities to withholding taxes, subject to customary exclusions.

As of March 31, 2018, United is the guarantor of \$154 million of aircraft mortgage debt issued by one of United's regional carriers. The aircraft mortgage debt is subject to similar increased cost provisions as described above for the Company's debt, and the Company would potentially be responsible for those costs under the guarantees.

Labor Negotiations. As of March 31, 2018, United had approximately 90,800 employees, of whom approximately 79% were represented by various U.S. labor organizations. UNITE HERE is attempting to organize United's Catering Operations employees, who are currently unrepresented, and filed an application to do so with the National Mediation Board on January 24, 2018.

NOTE 9 - DEBT

As of March 31, 2018, a substantial portion of the Company's assets, principally aircraft, route authorities, airport slots and loyalty program intangible assets, was pledged under various loan and other agreements. As of March 31, 2018, UAL and United were in compliance with their respective debt covenants. As of March 31, 2018, United had its entire capacity of \$2.0 billion available under the revolving credit facility of the Company's Amended and Restated Credit and Guaranty Agreement (as amended, the "2017 Credit Agreement").

EETCs. In February 2018, United created two new EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of

the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. Certain details of the pass-through trusts with proceeds received from issuance of debt in 2018 are as follows (in millions, except stated interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total proceeds received from issuance of debt during 2018 and recorded as debt as of March 31, 2018	Remaining proceeds from issuance of debt to be received in future periods
February 2018	AA	\$ 677	March 2030	3.50%	\$ 476	\$ 201

		<u>\$ 935</u>			<u>\$ 657</u>	<u>\$ 278</u>

The table below presents the Company's contractual principal payments (not including debt discount or debt issuance costs) at March 31, 2018 under then-outstanding long-term debt agreements (in millions):

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Overview

United Continental Holdings, Inc. (together with its consolidated subsidiaries, “UAL” or the “Company”) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, “United”). This Quarterly Report on Form 10-Q is a combined report of UAL and United including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United’s operating revenues and operating expenses comprise nearly 100% of UAL’s revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL’s assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words “we,” “our,” “us,” and the “Company” in this report for disclosures that relate to all of UAL and United.

The Company transports people and cargo through its mainline operations, which utilize jet aircraft with at least 118 seats, and regional operations, which utilize smaller aircraft that are operated under contract by United Express carriers. The Company serves virtually every major market around the world, either directly or through participation in Star Alliance®, the world’s largest airline alliance. UAL, through United and its regional carriers, operates approximately 4,600 flights a day to 354 airports across five continents.

First Quarter Highlights

- First quarter 2018 net income was \$147 million, or \$0.52 diluted earnings per share, as compared to net income of \$99 million, or diluted earnings per share of \$0.32, in the first quarter of 2017.
- Passenger revenue increased 6.5% to \$8.1 billion during the first quarter of 2018 as compared to the first quarter of 2017.
- First quarter 2018 aircraft fuel cost increased \$405 million, 26.0% year-over-year.
- Unrestricted liquidity at March 31, 2018 was \$6.5 billion, including \$2.0 billion of undrawn commitments under the Company’s revolving credit facility.
- In the three months ended March 31, 2018, UAL repurchased approximately 8.4 million shares of its common stock in open market transactions for \$0.6 billion. As of March 31, 2018, the Company had approximately \$2.4 billion remaining to purchase shares under its share repurchase program.
- Consolidated traffic increased 4.7% and consolidated capacity increased 3.6% during the first quarter of 2018 as compared to the first quarter of 2017. The Company’s load factor for the first quarter of 2018 was 80.4%.
- The Company took delivery of four Boeing 787-9 aircraft and two Boeing 777-300ER aircraft during the first quarter of 2018.

Outlook

In 2018, the Company expects its consolidated available seat miles to grow between 4.5% and 5.5% year-over-year. Most of this growth will be concentrated in our domestic network, especially in our mid-continent hubs. We believe greater scale and connectivity at our hubs reinforces our relevance and value proposition to our customers. Rebanking at our hubs is expected to drive significant additional connection opportunities. We will also expand flights in non-peak times of the year to more efficiently use our aircraft and facilities with the objective of driving an increase in profitability.

The price of jet fuel remains volatile. Based on projected fuel consumption in 2018, a one dollar change in the price of a barrel of crude oil would change the Company’s annual fuel expense by approximately \$97 million.

[Table of Contents](#)**RESULTS OF OPERATIONS**

The following discussion provides an analysis of our results of operations and reasons for material changes therein for the three months ended March 31, 2018 as compared to the corresponding period in 2017.

First Quarter 2018 Compared to First Quarter 2017

The Company recorded net income of \$147 million in the first quarter of 2018 as compared to net income of \$99 million in the first quarter of 2017. The Company considers a key measure of its performance to be operating income, which was \$276 million for the first quarter of 2018, as compared to \$320 million for the first quarter of 2017, a \$44 million decrease year-over-year. Salaries and related costs increased \$90 million, or 3.4%, in the first quarter of 2018 as compared to the year-ago period primarily due to contractually higher pay rates and benefit expenses driven by collective bargaining agreements and a 0.5% increase in average full-time equivalent employees.

Aircraft fuel expense increased \$405 million, or 26.0%, year-over-year primarily due to a 23.4% increase in the average price per gallon of aircraft fuel in the first quarter of 2018 compared to the year-ago period.

Regional capacity purchase increased \$83 million, or 15.5%, in the first quarter of 2018 as compared to the year-ago period due to a 6.3% increase in regional capacity related to the Company's initiative to improve connectivity at its domestic hubs.

LIQUIDITY AND CAPITAL RESOURCES

Current Liquidity

As of March 31, 2018, the Company had \$4.5 billion in unrestricted cash, cash equivalents and short-term investments, as compared to \$3.8 billion at December 31, 2017. The Company had its entire commitment capacity of \$2.0 billion under the revolving credit facility of the Company's Amended and Restated Credit and Guaranty Agreement available for borrowings. At March 31, 2018, the Company also had \$106 million of restricted cash and cash equivalents, which is primarily collateral for letters of credit and collateral associated with obligations for facility leases and workers' compensation.

We have a significant amount of fixed obligations, including debt, aircraft leases and financings, leases of airport property and other facilities, and pension funding obligations. At March 31, 2018, the Company had approximately \$15.0 billion of debt and capital lease obligations, including \$1.8 billion that will become due in the next 12 months. In addition, we have substantial noncancelable commitments for capital expenditures, including the acquisition of certain new aircraft and related spare engines. As of March 31, 2018, our current liabilities exceeded our current assets by approximately \$5.9 billion. However, approximately \$7.7 billion of our current liabilities are related to our advance ticket sales and frequent flyer deferred revenue, both of which largely represent revenue to be recognized for travel in the near future and not actual cash outlays. The deficit in working capital does not have an adverse impact to our cash flows, liquidity or operations.

As of March 31, 2018, United had firm commitments and options to purchase aircraft from The Boeing Company ("Boeing") and Airbus S.A.S. ("Airbus") presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350	45
Boeing 737 MAX	161
Boeing 777-300ER	2
Boeing 787	14

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery through 2027. To the extent the Company and the aircraft manufacturers with whom the Company has existing orders for new aircraft agree to modify the contracts governing those orders, the amount and timing of the Company's future capital commitments could change. For the remainder of 2018, United expects to take delivery of two Boeing 777-300ER aircraft, three Boeing 787 aircraft, 10 Boeing 737 MAX aircraft and three used Boeing 767-300ER aircraft. In March 2018, United entered into an agreement to purchase 20 used Airbus A319 aircraft with expected delivery dates scheduled in 2020 and 2021.

As of March 31, 2018, UAL and United have total capital commitments primarily related to the acquisition of aircraft and related spare engines, aircraft improvements and include other capital purchase commitments for approximately \$22.4 billion, of which approximately \$2.4 billion, \$3.7 billion, \$2.0 billion, \$2.7 billion, \$1.8 billion and \$9.8 billion are due in the last nine months of 2018 and for the full year for 2019, 2020, 2021, 2022 and thereafter, respectively. Any new firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information on aircraft financing. The Company has also secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing may be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures.

As of March 31, 2018, a substantial portion of the Company's assets, principally aircraft, route authorities, airport slots and loyalty program intangible assets, was pledged under various loan and other agreements. We must sustain our profitability and/or access the capital markets to meet our significant long-term debt and capital lease obligations and future commitments for capital expenditures, including the acquisition of aircraft and related spare engines.

Credit Ratings. As of the filing date of this report, UAL and United had the following corporate credit ratings:

	S&P	Moody's	Fitch
UAL	BB	Ba2	BB
United	BB	*	BB

* The credit agency does not issue corporate credit ratings for subsidiary entities.

These credit ratings are below investment grade levels. Downgrades from these rating levels, among other things, could restrict the availability or increase the cost of future financing for the Company.

Sources and Uses of Cash

Operating Activities. Cash flow provided by operations was \$1.7 billion for the three months ended March 31, 2018 compared to \$0.5 billion in the same period in 2017. Operating income for the first three months of 2018 and 2017 was \$0.3 billion. Working capital items changed by approximately \$1.2 billion year-over-year primarily due to a \$0.3 billion increase in advance ticket sales associated with our overall traffic growth, a \$0.3 billion decrease in employee incentive payments in the first three months of 2018 as compared to the year-ago period, a \$0.2 billion increase in mileage sales to our co-branded credit card partner due to full utilization of the pre-purchased miles in 2017, and a \$0.3 billion increase related to timing of accounts payable.

Investing Activities. Capital expenditures were approximately \$1.0 billion and \$0.7 billion in the three months ended March 31, 2018 and 2017, respectively. Capital expenditures for the three months ended March 31, 2018 were primarily attributable to additions of new aircraft, aircraft improvements, and increases in facility and information technology assets.

Financing Activities. During the three months ended March 31, 2018, the Company made debt and capital lease payments of \$0.2 billion. In the three months ended March 31, 2018, United received and recorded \$0.7 billion of proceeds as debt from the EETC pass-through trusts established in February 2018. See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information.

Share Repurchase Programs. In the three months ended March 31, 2018, UAL repurchased approximately 8.4 million shares of UAL common stock in open market transactions for \$0.6 billion. As of March 31, 2018, the Company had approximately \$2.4 billion remaining to purchase shares under its share repurchase program.

UAL may repurchase shares through the open market, privately negotiated transactions, block trades or accelerated share repurchase transactions from time to time in accordance with applicable securities laws. UAL will repurchase shares of UAL common stock subject to prevailing market conditions, and may discontinue such repurchases at any time. See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds of this report for additional information.

Commitments, Contingencies and Liquidity Matters. As described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the "2017 Annual Report"), the Company's liquidity may be adversely impacted by a variety of factors, including, but not limited to, pension funding obligations, reserve requirements associated with credit card processing agreements, guarantees, commitments and contingencies.

See the 2017 Annual Report and Notes 6, 8, 9 to the financial statements contained in Part I, Item 1 of this report for additional information.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer of UAL and United have concluded that as of March 31, 2018, disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting During the Quarter Ended March 31, 2018

During the three months ended March 31, 2018, there were no changes in UAL's or United's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, their internal control over financial reporting (as defined in rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934).

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

See Part I, Item 3, Legal Proceedings, of the 2017 Annual Report for a description of legal proceedings.

ITEM 1A. RISK FACTORS

See Part I, Item 1A, Risk Factors, of the 2017 Annual Report for a detailed discussion of the risk factors affecting UAL and United.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

(b) None

(c) The following table presents repurchases of UAL common stock made in the first quarter of fiscal year 2018:

Period	Total number of shares purchased (a)(b)	Average price paid per share (b)(c)	Total number of shares purchased as part of publicly announced plans or programs (a)	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions) (a)
January 2018	1,051,444	\$ 66.57	1,051,444	\$ 2,930
February 2018	3,101,048	66.27	3,101,048	2,725
March 2018	4,255,515	68.89	4,255,515	2,431
Total	8,408,007		8,408,007	

(a) In December 2017, UAL's Board of Directors authorized a \$3.0 billion share repurchase program to acquire UAL's common stock. As of March 31, 2018, the Company had approximately \$2.4 billion remaining to purchase shares under its share repurchase program. UAL may repurchase shares through the open market, privately negotiated transactions, block trades or accelerated share repurchase transactions from time to time in accordance with applicable securities laws.

(b) The table does not include shares withheld from employees to satisfy certain tax obligations due upon the vesting of restricted stock awards and restricted stock units. The United Continental Holdings, Inc. 2017 Incentive Compensation Plan and the United Continental Holdings, Inc. 2008 Incentive Compensation Plan each provide for the withholding of shares to satisfy tax obligations due upon the vesting of restricted stock. However, these plans do not specify a maximum number of shares that may be withheld for this purpose. A total of 243,003 shares were withheld under these plans in the first quarter of 2018 at an average price per share of \$67.72. These shares of common stock withheld to satisfy tax withholding obligations may be deemed to be "issuer purchases" of shares that are required to be disclosed pursuant to this Item.

(c) Average price paid per share is calculated on a settlement basis and excludes commission.
