CONTINENTAL AIRLINES REPORTS MAY 2005

OPERATIONAL PERFORMANCE

HOUSTON, June 1, 2005 - Continental Airlines (NYSE: CAL) today reported a May consolidated (mainline plus regional) load factor of 79.1 percent, 4.7 points above last year's May consolidated load factor, and a mainline load factor of 79.8 percent, 5.1 points above last year's May mainline load factor. The carrier reported a domestic mainline load factor of 81.2 percent, 6.1 points above May 2004, and an international mainline May load factor of 78.0 percent, 3.8 points above May 2004. All four were operational records for May.

During the month, Continental recorded a U.S. Department of Transportation on-time arrival rate of 83.7 percent and a systemwide mainline completion factor of 99.8 percent.

In May 2005, Continental flew 6.7 billion consolidated revenue passenger miles (RPMs) and 8.4 billion consolidated available seat miles (ASMs), resulting in a traffic increase of 10.8 percent and a capacity increase of 4.2 percent as compared to May 2004. In May 2005, Continental flew 5.9 billion mainline RPMs and 7.4 billion mainline ASMs, resulting in a mainline traffic increase of 9.8 percent and a mainline capacity increase of 2.8 percent as compared to May 2004. Domestic mainline traffic was 3.4 billion RPMs in May 2005, up 7.9 percent from May 2004, and domestic mainline capacity was 4.1 billion ASMs, down 0.3 percent from May 2004.

For the month of May 2005, consolidated passenger revenue per available seat mile (RASM) is estimated to have increased between 8.5 and 9.5 percent compared to May 2004, while mainline passenger RASM is estimated to have increased between 9.0 and 10.0 percent compared to May 2004. The principal factor contributing to Continental's improved estimated RASM performance for May 2005 versus May 2004 was load factor improvement versus the prior period. Also contributing to the estimated RASM performance was the impact of recent domestic fare increases and the carrier's actions to appropriately revenue manage the emerging trend of customers booking closer in to flight dates, to improve the mix of local versus flow traffic, and to reduce its discounting. For April 2005, consolidated passenger RASM increased 2.2 percent compared to April 2004 and mainline passenger RASM increased 2.4 percent from April 2004.

Continental's regional operations (Continental Express) set a record May load factor of 73.7 percent, 1.9 points above last year's May load factor. Regional RPMs were 739.3 million and regional ASMs were 1,002.6 million in May 2005, resulting in a traffic increase of 19.3 percent and a capacity increase of 16.2 percent versus May 2004.

Continental Airlines is the world's sixth-largest airline. Continental, together with Continental Express and Continental Connection, has more than 3,000 daily departures throughout the Americas, Europe and Asia, serving 150 domestic and 130 international destinations, more than any other carrier in the world. Nearly 400 additional points are served via SkyTeam alliance airlines, which include Aeromexico, Air France/KLM, Alitalia, CSA Czech Airlines, Delta Air Lines, Korean Air and Northwest Airlines. With 41,000 employees, Continental has hubs serving New York, Houston, Cleveland and Guam, and together with Continental Express, carries approximately 56 million passengers per year. Continental consistently earns awards and critical acclaim for both its operation and its corporate culture.

For the second consecutive year, *FORTUNE* magazine named Continental the No. 1 Most Admired Global Airline on its 2005 list of Most Admired Global Companies. Continental was also included in the publication's annual "Top 50" list, which ranks all companies, across a wide variety of industries, that appear in the Global Most Admired Companies issue. Continental again won major awards at the 2005 OAG Airline of the Year Awards including "Airline of the Year" and "Best Airline Based in North America" for the second consecutive year, and "Best Executive/Business Class" for the third consecutive year. For more company information, visit www.continental.com.

This press release contains forward-looking statements that are not limited to historical facts, but reflect the company's current beliefs, expectations or intentions regarding future events. All forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. For examples of such risks and uncertainties, please see the risk factors set forth in the company's 2004 10-K and its other securities filings, which identify important matters such as the consequences of our significant financial losses and high leverage, terrorist attacks, domestic and international economic conditions, the significant cost of aircraft fuel, labor costs, competition, and industry conditions, including the demand for air travel, the airline pricing environment and industry capacity decisions, regulatory matters and the seasonal nature of the airline business. In addition to the foregoing risks, there can be no assurance that we will be able to obtain the needed pay and benefit reductions from our flight attendants or that the ratified agreements with our pilots, mechanics, dispatchers and simulator engineers will enable us to achieve the cost reductions expected as a result of such agreements, which will depend, upon other matters, on timely and effective implementation of new work rules, actual productivity improvement, employee attrition, technology implementation, our level of business activity, relations with employees generally and the ultimate accuracy of certain assumptions on which our cost savings are based. The company undertakes no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date of this press release.
